

ROLA-TRAC LITE

Technical Information

Material Standard grade;	PPCP
Panel Size;	333mm x 166mm
Panel Area;	0.06sq/m
Panel thickness;	12mm
Panel weight;	0.125kg

Operating Conditions

Ambient temperature range; -40°c > + 50°c
Max static load: 15,000kg sq/m
Suitable surfaces; Turf, Soil, Sand, Gravel, hard standing

Deployment

Can be deployed in straight runs or pads.
Manually deployed
Speed = 60 m2 per hour per man.

Operating parameters

Self draining
Inert and non-conductive
Resistant to solvents
Non corroding
Resistant to UV damage
Anti-Slip

Transport

73 sq/m per pallet
52 pallets per 13.6m trailer
